Derby – Pride Park

Organisational chart / accountability

Main duties and responsibility of the post

Liaison are looking for a Senior Developer ready to step up and take on their next challenge. You will be working in an Agile way on a project replacing an existing system with the latest technology stack.

You will:

- Contribute thoughts and ideas in daily stand ups to move the project forward
- Build API methods
- Build website components that consume API methods
- Help shape the conventions the team uses to ensure high quality code that the whole team understands
- Perform code reviews
- Be responsible for shaping the product as it grows
- Be involved in the Sprint Refinement process
- Input new business processes and new technologies
- Be responsible for providing timescales / story points for pieces of work

Knowledge, training, experience and skills required

Criteria required

Essential

- .Net C#
- Entity Framework
- Web API
- Agile experience

Desirable

- JavaScript
- .Net Core experience
- Angular 2+ experience
- Kendo UI experience
- SQL
- GIT experience
- RESTful API
- TypeScript
- Bootstrap
- Clean Architecture

Specific skills

Essential

- Good communicator
- Able to work alone and part of a team
- Able to propose and support ideas

Qualification & training

Essential

- Undergraduate level Degree qualification in Computer Science or Software Development (or equivalent)

Desirable

- Masters level qualification in Software Development (or equivalent)

Requirements due to working environment

Essential

- Must be available to work in the office (some home working considered)

Motivation

Essential

- Must be project and deadline driven

Key performance indicators

- Understanding technology stack in place
- Must have completed all online training by set period of time within probationary period
- Must be producing own parts of the system to a high level

Other duties

In addition, the postholder will be expected to:

- Undertake training and development deemed necessary for the pursuance of the post. A Pluralsight licence will be provided to assist this.
- Ensure that Health & Safety is observed in the course of employment.
- Comply with the contract of employment and company policies and procedures.
- Comply with any reasonable requests which may be communicated by the company from time to time

This job description does not attempt to define, in detail, all duties and responsibilities and may be subject to periodic review and alteration by the company.

The Information Security Management System applies to the Liaison Information System and relevant assets incorporating recovery and compliance services to the public sector.
